## MY CHOICE IS

The EVENING DEMOCRAT.

**SPECIAL NOTICE.**—Patrons of the EVENING DEMOCRAT will confer a favor upon the management by promptly reporting any irregularity in delivery or bad condition of paper from improper handling.

## CIRCULATION.

There are more Sedalia people regular readers of the EVENING DEMOCRAT than any other paper.

"STAND UP FOR MISSOURI," and also for Pettis county.

WHAT is the reason Editor Streit let up so suddenly on interviews?

THE Gazette is given to misrepresenting and slandering democrats, hence there should be no surprise when that paper accuses the lamented Andrew Jackson of having been a protectionist.

WHAT is the matter with the Gazette? It has been several days since that paper abused Hart or Pilkington for supporting the democratic ticket. Has it discovered that the missiles it threw at the gentlemen named only drove votes away from the republican ticket?

THE question that now disturbs the republican schemers is, "Can Col. Boyd be pushed off of the track for senators." The scheme proposes to dispose of the colonel in short order without his consent or the consent of his party associates in Pettis, Benton and Hickory.

THE Kansas City Mail, republican, says of Secretary Isaacs who was denounced as "a Jew" of a "Jew" by Major Blake of the republican state committee, and then "fired" from his position: "Meanwhile Mr. Isaacs moves on in the even tenor of his way with a long keen knife way up his sleeve, which will appear and do its work at the proper time."

EITHER the tariff increases the price of "protected" goods or it does not benefit the manufacturer; if it increases the selling price of goods it is a tax upon the consumer. Admitting the claim that it increases the profit to the manufacturer, it only increases his ability to pay higher wages; but wages are not regulated by ability to pay. The millionaire and the man of moderate means pay the same price for the same article.

GOVERNMENT disclaims any interest upon the Sedalia

school board in his letter to Judge Norton, and he should have the full benefit of the disclaimer. The governor doubtless realizes by this time that he made a serious mistake when he rushed into print with his letter at a time when a suit was pending in the civil courts to settle the controversy, and that his reference to "prosecuting attorneys" and criminal prosecutions were decidedly out of place under the circumstances.

**THE FIGHT IN THE COUNTY.**  
The campaign for the local offices has commenced and Pettis county democrats are getting ready for the fray.

They were wise enough to select their ticket at an open primary election where every individual democrat had the right and privilege of recording his individual choice for every position.

A ticket named in this way is absolutely free from any taint of swaps, trades or boss rule.

It is an expression of the aggregate of the individual preferences of the democrats of the county, and as such is entitled, individually and collectively, not only to the vote but to the active support of every democrat in the county.

There is not a dishonest or incompetent man nominated for any office by the democrats of Pettis county; there is not a man on the ticket that has been put there by questionable means.

Each and every nominee is an honest man, a gentleman, a democrat, and qualified for the office for which he is a candidate.

With such a ticket it is easy for the democracy of Pettis county to win a sweeping victory, especially when the party goes into the fight cheered by the memory of the victory achieved in this county in 1890 and enthused at the spectacle of Sedalia's democratic victory last spring.

If Sedalia can be carried by the democracy in face of one of the hardest fights the political enemy has ever made in the city, surely nothing can prevent a clean sweep in the county this fall.

The drift of public sentiment is favorable to democracy everywhere, and unless Pettis county democrats deliberately throw away the opportunity by inaction, there can be no question about the result.

But each individual democrat should make it his business to put his shoulder to the wheel and help make the majority so large that future victories will be easily won.

## NOT FIT FOR GOVERNOR.

The Johnson County Union, a third party paper, quotes this paragraph in the Globe-Democrat:

Q. "What part of the Major's speech seemed to be best received?"

A. "I think it was what he had to say about the Noland defalcation. Wherever Major Warner gave his description of the moss-back, the man who sits on the fence and whistles and squirts tobacco juice at a mark and cusses everything, there was a spontaneous shout."

Then the Union comments as follows:

"Thus a man who considers himself fit to be governor of a great state like Missouri, and who appeals to its people to 'Stand up for the State,' goes about himself slandering the majority of that people (democrats and populists) and vilifying farmers (for 'sitting on a fence,' applies to farmers only) instead of standing up himself as a noble American, upholding the merits of his fellow citizens, minifying or forbearing their demerits and pointing the road to improvements, progress and prosperity. We fail to behold in a man who charges the rank and file of the democratic party with the defalcations of Noland and ridicules the farmers and their political movement, a fit person to be governor of any state."

## NOT STUCK ON WARNER.

The Western Watchman, the leading Catholic newspaper in St. Louis, pays its respects to Major William Warner in the following vigorous language:

"The man who can use freemen's ballots for kindling wood is not fit to be governor of Missouri."

We will forgive the men who burned our homes; but the man who burned our ballots never.

The man who does not know a ballot box from a cannon-stove is not fit to be governor of Missouri.

The man who does not know the cross of Christ from a hoodoo wand is not fit to be governor of Missouri.

The Rodman regime, like Or-

rick's skull, is well enough to look at, but keep it away from the people's noses.

The man who can slander 300,000,000 of his fellow men and not know he did it, is not fit to be governor of Missouri.

In 1865 to be a black republican in Missouri was to be a king; now there is not a despised Irish-Catholic in the state will do him homage."

THE know-nothing circular in which the democratic state ticket is blacklisted, says the Republic, is being distributed in St. Louis in connection with two other circulars, one advertising a know-nothing lecture. The other, purporting to be by "an American wage-earner," is headed: "Where Was I At?" It attacks Cleveland and charges the democratic party with trying to cut down wages. There can be no doubt that the entire know-nothing movement is under republican auspices, and every English republican paper in the state is giving it countenance, while the democratic and independent press is growing more aggressive in exposing it. The Spectator says this week that "no honest, loyal citizen of the United States could join such an organization as the A. P. A. and retain his self-respect." Certainly no democrat can remain in such a secret radical order and remain a democrat.

CLEVELAND's election is assured. Stone is certain to carry Missouri. Now let the Pettis county democracy see that their county ticket is elected without the loss of a man.

TAMMANY will support Cleveland in good faith, and this means that New York will give him her electoral vote.

## A Cholera Scare.

A reported outbreak of cholera at Helmetta, N. J., created much excitement in that vicinity. Investigation showed that the disease was not cholera but a violent dysentery, which is almost as severe and dangerous as cholera. Mr. Walter Willard, a prominent merchant of Jamesburg, two miles from Helmetta, says Chamberlain's colic, cholera and diarrhoea remedy has given great satisfaction in the most severe cases of dysentery. It is certainly one of the best things ever made. For sale by Aug. Fleischmann, Druggist.

For over a dozen years past, J. A. Bailey has been the sole manager of the Barnum & Bailey show. His extraordinary ability is again most apparent in the organization of the big institution this year, and it is due to his great genius alone that the great spectacle of Columbus and the discovery of America has been made a part of the exhibition this season.

## U. F. Short's Dairy.

Having charge of U. F. Short's dairy during his absence, would be glad to have his old customers remember us. Milk entirely from Jersey and Holstein cows.

## Resolution.

Be it resolved by the council of the City of Sedalia, Mo., as follows, to-wit: That we deem and declare it necessary that Third street in said city be graded from the south line of [thirty] Thirtieth street south to the south line of Twenty-fourth street, and that this resolution be published in the newspaper doing the city printing for two consecutive weeks.

B. HUTCHINSON, President Pro Tem of Council.  
Approved this 23d day of September, 1892.  
Attest: EDWARD HUGH, City Clerk.  
9-23-2w B. HUTCHINSON, Acting Mayor.

## Resolution.

Be it resolved by the council of the city of Sedalia, Mo., as follows, to-wit: That we deem and declare it necessary that Third street in said city be paved from the west line of Lamine avenue east to the east line of Hancock avenue; and that this resolution be published in the newspaper doing the city printing for two consecutive weeks.

B. HUTCHINSON, President Pro Tem of Council.  
Approved this 23d day of September, 1892.  
Attest: EDWARD HUGH, City Clerk.  
9-23-2w B. HUTCHINSON, Acting Mayor.

## Notice to Fencing Contractors.

Notice is hereby given that the city council of the city of Sedalia, Missouri, will receive and consider bids for the paving of the alley in block 45 of the original plat of the town of Sedalia, Mo., in the manner and pursuant to the provisions and conditions of an ordinance of said city entitled "An ordinance providing for the paving of the alley running east and west in block 45 of the original plat of the city of Sedalia, Mo.," passed May 16, 1892, and approved May 17, 1892, and which is now on file in the office of the city clerk of said city.

All bids shall be sealed. State price per square yard, and shall be filed with the city clerk, in his office, on or before 5 o'clock Monday, October 10.

All bids shall be based on the specifications, provisions and conditions of said ordinance and the plans and profiles of said work now on file in the office of the city engineer.

The council reserves the right to reject any and all bids.

J. S. BOSSERMAN,  
RUDOLPH DEAN,  
DANIEL MCKENZIE,  
Committee on streets and alleys.

## VAUNTED REMEDIES.

No Good in the Advertised Cholera Remedies.

## TRIED THEM VAINLY AT HAMBURG.

A Hospital Physician Speaks Intelligently—Another One Has Faith in Inoculation—A Third Thinks Much of Sticking

BERLIN, Oct. 1.—Prof. Rumpf, of the Eppendorfer hospital, in Hamburg, in reporting his experiences in the treatment of 3,000 cholera patients, declares that all of the various vaunted remedies are useless. Among these he includes salol, creosol, creosote, lactic acid and hydrochloric acid. The injection of sulphuric acid and morphia, as suggested by American doctors, he also found of no avail, but in mild cases, the injection of tannin was successful. He concludes that all methods aiming merely at disinfection fail, and that remedies must be sought which remove the choleraic bacilli from the human system. He mentions hot baths, hot coffee and tea, wine, champagne and camphor as useful in critical cases, and adds that the injection of a solution of common salt cured 35 per cent. of the cases so treated.

Prof. Klebs, who has been treating patients in Hamburg with injections of a fluid obtained through the culture of the cholera bacillus, states that after the use of the fluid the temperature of the patient soon becomes normal and that several apparently hopeless cases have recovered under this treatment.

Dr. Elmer Lee, of Chicago, who has been treating cholera patients in St. Petersburg, says of his treatment: "My method is based on physiological experience and common sense. I simply apply to my patients the cleansing system which Dr. Koch and other scientists would like to see applied to towns and houses. In short, I wash out the deadly substances with common soap and water and an irrigator. In twenty-four of the twenty-seven cases confided to me I have been able to report cures. To convince myself scientifically of the value of my method I should like to experiment on at least 100 more cases. I believe I am on the right track."

"Do you believe in the Koch theory that the bacillus is the cause, not the effect, of Asiatic cholera?"

"I haven't been able to convince myself on that point, nor have Dr. Nenck, professor of bacteriology at St. Petersburg, and other Russian authorities."

"Do you believe in the efficacy of anti-cholera inoculation?"

"I shouldn't like to speak too positively, but I am disinclined to believe in it. In the first place you cannot expect the cause of cholera by inoculation. You cannot close the mouth through which they enter. Consequently you cannot keep them out of the stomach and bowels. Next, if the poison is once in, it becomes subject to the same laws as other materials and will be absorbed when it enters the blood. The result is blood poisoning."

## A Cleveland Incident.

FALL RIVER, Mass., Oct. 1.—While ex-President Cleveland was on his way to New York on the Pilgrim last night and was at the dining table, he was approached by a waiter, who brought him a glass of wine from a Mrs. Giddard, of Kentucky, who was traveling with her daughters. She sent her compliments with it and expressed a wish for his continued good health and his success in the campaign. The ex-president arose, bowed his acknowledgments and touched the glass to his lips, but did not drink. He asked to be excused, as he had decided to drink no intoxicants during the present struggle. The announcement was greeted with great applause.

## Cleveland at New York.

NEW YORK, Oct. 1.—Ex-President Cleveland arrived in the city this morning from Buzzard's bay on the Pilgrim. About two hundred people were on the pier to receive him. Mr. Cleveland was accompanied by Richard Watson Gilder, editor of the Century, and Daniel J. Griffin, of Watertown. He was driven to the Victoria hotel, where he will remain during his stay, the duration of which is not yet known.

## Bignadage in New York.

BUFFALO, N. Y., Oct. 1.—Sheriff Beck has received word from Sheriff Liddell, of Montgomery county, to look out for John Murphy and George Thomas, two tramps who were wanted for abducting Joseph Dwyer, a twelve-year-old boy. Messages say that the boy was enticed away by the tramps a short distance from his home and is probably being held for ransom.

## Cowley County's Sheriff Not Killed.

WINFIELD, Kan., Oct. 1.—A sensational report was sent from Guthrie last night that Sheriff Nipp, of Cowley county, had been killed by the Dexter bank robbers, but the officer is here safe and sound. The robbers entered the Indian territory and escaped. Several shots were fired, but no one was hurt.

## Pike's Peak Signal Station Burned.

DENVER, Col., Oct. 1.—The famous signal station at the summit of Pike's Peak burned last night. While the building was used by the weather bureau it was the highest point of observation in the United States. This year it was utilized as a safe for passengers on the cog road.

## Forty Cars Burned.

CHICAGO, Oct. 1.—Fire in the Nickel Plate freight yards at Eightieth street and Stony Island avenue this morning destroyed forty earloads of merchandise, causing a loss estimated to exceed \$100,000. Sparks from passing engines did it.

## Waterloo Veteran Dead.

BERLIN, Oct. 1.—Gen. Carl Muller, the last surviving German officer who took part in the battle of Waterloo, died today in Hanover. He was 95 years old.

The Illinois Humane society will not allow bull fights at the Chicago world's fair if it can help it.

## ILLEGAL BANKING.

A Kansas People's Party Leader Accused of Violating the Law.

ABILENE, Kan., Oct. 1.—John W. Breidenthal, chairman of the state people's party central committee, was arrested yesterday afternoon and was brought before Judge Humphrey of the district court on a charge of illegal banking.

As secretary of the Kansas Sinaloa Investment Co. Breidenthal has issued several hundred certificates of deposit, of which the following quoted in the information is a sample:

CERTIFICATE OF DEPOSIT.  
KANSAS SINALOA INVESTMENT COMPANY,  
ENTERPRISE, KANSAS, July 1, 1892.

Charles E. Smith has deposited with this company ten dollars, payable to the order of Irving W. Smith, \$8.44, on return of this certificate properly indorsed, with interest at the rate of 6 per cent. per annum, if left four months.

KANSAS SINALOA INVESTMENT COMPANY,  
By JOHN W. BREIDENTHAL, Secretary.  
State Bank Commissioner Johnson held the proceedings to be banking in fact, and ordered Breidenthal's arrest.

He gave bond fixed at \$300 for appearance for trial October 7. Breidenthal claims that the certificates were issued only as a matter of convenience, sending money colonists in Topolobampo, and that they were payable there as well as here and served as a medium of exchange.

## ONE MAN RESCUED.

Abraham Thompson Taken From the Cave in Mine Near Ishpeming, Mich.

ISHPEMING, Mich., Oct. 1.—A dispatch from Ironwood says that one man, a miner named Abraham Thompson, was rescued alive from the fated Norris mine.

He is uninjured, but was so fearfully scared by his thirty hour imprisonment that he can scarcely speak. He was in a room by himself and does not know where the other ten men were.

It is feared they were in another "room" and that all perished, carried down to destruction by the enormous fall of rock and ore. If so, even their bodies will never be found. A drift forty feet long, through rock and ore, has already been driven by the rescuing party.

The men working in this party are themselves in great danger; the ground in which they are working is likely to start to run at any time, overwhelming them as well as the unfortunate ten whose life or death is now a matter of conjecture.

## A JASPERITE FRAUD.

Wichita to Pay \$63,000 For a Worthless Pavement.

WICHITA, Kan., Oct. 1.—R. F. Wilson, of Chicago, a contractor, won his suit in the federal court against the city of Wichita for \$63,000. Three years ago Wilson was given a contract to pave Douglas avenue, the city's main thoroughfare, with a patent pavement known as Jasperite, which has since proved to be utterly worthless. The pavement began breaking up even before the work was completed and the city refused to pay for it. The city engineer, however, had certified that three installments of the work had been done according to contract and his report had been accepted by the council, and on this showing Judge Williams gave Contractor Wilson a verdict.

## The Pan-Presbyterian Council.

TORONTO, Ont., Oct. 1.—The closing session of the great Pan-Presbyterian council took place this morning, with Dr. Cochran, of Brantford, Ont., in the chair. Dr. Talbot Chambers, of New York, the newly elected president, was introduced and read an excellent paper upon the doctrinal agreement of the Reformed and Presbyterian churches. A warm resolution of thanks was tendered Dr. Blaikie, of Scotland, the venerable retiring president and one of the fathers of the alliance, for the work he had done in connection therewith. The sessions of the council closed with a mass valedictory gathering addressed by representatives of each hemisphere.

## Mike McDonald Retires.

CHICAGO, Oct. 1.—M. C. McDonald, who was recently indicted by the grand jury on a charge of attempting to bribe Justice Woodman in the Garfield park cases, by the advice of his attorney handed in his resignation as a member of the Cook county democratic executive committee. It is understood he will also resign from the state committee, as he announced his determination to retire permanently from politics.

## The Oldest Prisoner.

GUTHRIE, Ok., Oct. 1.—The Muscogee, I. T., jail at present contains a man who is probably the oldest prisoner in the United States. His name is Ben Graham, he is 102 years old and has been in jail there every winter for ten years. He is at present charged with selling whisky to the Indians and will spend the coming winter months around the jail fire as usual.

## President Harrison Will Be There.

WASHINGTON, Oct. 1.—There is no truth in the report that the president has decided not to participate in the dedicatory services of the Columbian exposition buildings on the 21st of October. "The president recognizes it as a public duty to be in Chicago on that occasion," said Private Secretary Halford, "and will certainly be there, if he possibly can."

## Attempt to Rob a Post Office.

LYONS, Kan., Oct. 1.—An unsuccessful attempt was made to rob the post office at this place. The work did not bear evidence of being done by experts, but is supposed to have been made by members of a gang who have recently operated on four safes with a radius of fifty miles.

The Buena Vista hotel at Denver, Col., was destroyed by fire. The guests were saved by the bravery of Patrick Mitchell, who first awoke. Two persons were severely burned.

Clearing house returns for the week ended September 30 showed an average decrease of 16.9 compared with the corresponding week of last year. In New York the decrease was 27.6.

#### ABOUT TEA DRINKING.

An Expert Says There Is No Good Tea In America.

A few words of advice to tea drinkers may not be malapropos.

When I left the United States I was considered a fair judge of tea. Now, after having visited Ceylon, Formosa and the Amoy district I find I knew nothing of tea.

We Americans don't know the first principles of making tea. The delicate leaf should never touch metal. It should be kept in paper, wood, glass or porcelain. To make it, put a small quantity in a porcelain cup, fill the latter with boiling water, cover it up with a porcelain saucer and let it stand three minutes.

Then, if you desire to be an epicure drink only the upper layer of the golden liquor, throw the rest away, rinse the cup, and begin drawing de novo. Never use sugar any more than you would sweeten Chamberlain's or pour molasses into Mumm's extra dry. Do not use milk. It ruins the flavor of tea and the combination injures the stomach. The cloudiness produced by adding milk to tea arises from the action of the tannin upon the casein, and is, chemically speaking, pure leather.

Above all things, do not boil tea, says Edward Bedloe, United States consul at Amoy, China. The heat drives off the perfume, spoils the flavor and extracts the tannin, the astringent principle. If the boiling be done in a tin or iron pot the tannin attacks the metal and makes the liquid black. This fluid is simply diluted ink.

Never let the tea stand except in a tightly-closed porcelain pot. Standing changes it from a delicious, wholesome beverage into an ill-tasting and bitter liquor. Better make it in small quantities and make it often. In summer, when you want to cool off quickly, sip the tea boiling hot, with a slice of previously peeled lemon, or nicer still, of orange without the rind, floating in it. In winter, especially when you have a cold and require a sudorific, add a wineglassful of arrack to it and drink it down as hot as you can stand it. It will bring out a profuse perspiration when punch or hot Scotch falls to thaw you out.

Beware of green tea! It is an abomination and a fraud. In the first place, it is the unripe leaf, and bears the same relation to the real article that the green does to the ripe peach. The green tea of commerce derives its rare color from being cured, or rather killed, on dirty copper pans, from being mixed with weeds and shrubs, from being stained with indigo and chrome yellow, from being colored with verdigris, grass juice, chlorophyll. Every green dye known to commerce has been used to produce that much admired but death-dealing color, except it may be Paris green. As soon as the use of that poisonous substance will give a profit of a cent a pound, no doubt it will be liberally used by the mercenary Mongolian merchant and the much more mercenary, cultured European tea trader. I will venture the statement that there is no fine tea in the United States.

What goes to our country is the cheap stuff used here by the coolies and jail inmates.

When an American housekeeper pays one dollar per pound for her Oolong or English breakfast, she is buying what is sold here for twenty-five cents. No really good tea is sold here for less than one dollar per pound by the wholesale. If laid down in the market at home it could not be sold for less than one dollar and seventy-five cents—Goldthwaite's Magazine.

#### 'T WAS EVER THUS.

There is Always Some Drawback to Unalloyed Happiness.

She was a beautiful girl, upon whose lustrous curls twenty summers had laid their roses in showers of color and fragrance, and upon whose fair shoulders the decree of fashion had placed a pair of suspenders.

If any who read these lines have not yet got themselves up on this fad, they should at once look up the latest fashion plates.

She was radiant in her loveliness, and the young man who sat beside her when the shadows of the evening fell was as happy as she was beautiful.

It was an iridescent combination. He had proposed and had been accepted and he had just concluded a wild, impulsive embrace that now was tapering off gradually in a tender, one-armed hug as lingering as a case of the grip in a hard winter.

"George," she murmured, "will you do me a favor?"

"A million!" he exclaimed, with tropical luxuriance; "a million times a million, darling."

"One is enough, deary," she said with a soft little smile of joyous contentment.

"What is it, darling?" he whispered, drawing her closer to him.

"Will you lend me a horseshoe nail?" she lisped, blushing.

"We have busted my galluses," And George's great heart yearned and broke then, for he had come to the trying place without a horseshoe nail.

#### Sure Enough.

"I observe, Miss Georgiana," said the professor, "that you speak of Mars as 'she.' Why do you do that?"

"We speak of a man-of-war as 'she,' professor," replied the young woman, "and why not the god of war?"—Chicago Tribune.

#### Political Notes.

The democrats of Republic county, Kan., have decided to endorse the people's party county ticket.

The democrats of Andrew county, Mo., have nominated a full county ticket, headed by I. R. Williams for representative.

The republicans of Jasper county, Mo., have nominated a full county ticket, headed by R. T. Stokney, of Carthage, and A. E. L. Gardner, of Joplin, for representatives.

Complete election returns of the state election in Arkansas show that Flahback, democrat, received 90,115 votes; Whipple, republican, 85,644, and Carnegie people's party, 81,177.

### SUDDEN ARRESTS AT HOMESTEAD.

Strikers Wondering What It Was All About as the Officers Swoop Down on the Advisory Committee—The Penalty Not Death.

HOMESTEAD, Pa., Oct. 1.—A great sensation was created here last night by the arrest for treason of a number of the members of the advisory committee of the Homestead strikers. Those arrested were Chairman Thomas J. Crawford, William Blair, George Rylands, John Dierken and T. W. Brown. Arrests came like a thunderbolt to the strikers, they were so suddenly made and so unexpected. The prisoners were chatting at street corners when they were taken. The officers were Detectives Mills and Farrell and Deputies Young, Brady, Newlin, Krepe and Ward.

The informations on which the arrests were made were given by County Detective Beltschover before Chief Justice Paxton, of the supreme court of Pennsylvania. The petition charges Hugh O'Donnell, Thomas J. Crawford, John McLaughlin and many others, all members of the strikers' advisory committee, with treason. It states that the defendants, who are inhabitants and residents of the commonwealth of Pennsylvania, did ordain, prepare and levy war against the commonwealth of Pennsylvania to the end that the constitution, laws and authority were defied, resisted and subverted, and that the said defendants on July 1, with hundreds of miners, armed and arrayed in warlike manner, that is to say with guns, revolvers, cannons, swords, knives and clubs, did unlawfully, maliciously and traitorously assemble in the borough of Homestead, and then and there, with force and arms, did falsely and traitorously and in hostile and warlike manner array themselves in insurrection and rebellion against the commonwealth of Pennsylvania contrary to the duties of allegiance and fidelity of said defendants.

It was late in the afternoon when the warrants reached Homestead and were placed in the hands of the officers. They started out at 9 o'clock and first caught Crawford and Dierken. The others were caught in quick succession before the strikers had time to realize what was happening. As the prisoners were speeding to the prison tents the alarm was taken and many strikers hastened toward the guard, but they were denied all information; indeed, several of the prisoners did not know why they were arrested until safe behind the bayonets of the soldiers. It was intended first to keep the prisoners all night and hunt for others, but through fear of an attempt at rescue they were taken to the city farm station, placed on the train, taken to Pittsburgh at 11 o'clock and landed in jail.

#### GLANDERS NEAR MOBERLY.

A Serious Outbreak in Randolph County, Mo.

MOBERLY, Mo., Oct. 1.—The farmers in this vicinity are greatly excited over the discovery of glanders among the horses at Renick, a little town six miles south of here. Dr. L. E. Booth, of this place, was called there a few days since to examine a horse and pronounced the case glanders. He immediately telegraphed for State Veterinarian Turner, who arrived and confirmed his opinion.

Yesterday afternoon it was discovered that several deaths had already resulted from the disease among animals owned by the livermen and farmers near there, who had no thought of the true cause. A quarantine was immediately ordered and all efforts will be made to prevent the disease from spreading.

#### Attacked With Sore Eyes.

OMAHA, Neb., Oct. 1.—Lorenzo Crounse, republican candidate for governor, has been forced to cancel all dates and place himself under the care of an oculist. A few days ago one of his eyes began to pain him, but no particular attention was paid to it. Last night, however, the pain was intense and this morning he consulted an oculist. It developed that an ulcer had formed on the ball of one eye and the other eye is sympathetically affected. Judge Crounse hopes to be able to begin work by October 15, but his physician says that it is not likely that he can.

#### Nine Hundred Sheep Perish.

OMAHA, Neb., Oct. 1.—Fire broke out at 9 o'clock in the covered sheep pens of the Union Stock Yards Co. at South Omaha, and burned six pens, each 50x200 feet in size. The fire spread with such rapidity that great damage was done before the packing house and the South Omaha fire forces arrived. Nine hundred sheep confined in the pens, and which had just been weighed out to Swift & Co., perished.

#### A Bad Runaway.

BURLINGTON, Kan., Oct. 1.—While Mrs. Niver, her daughter, who was visiting her, and two children were out riding, their horse became scared at a threshing machine and ran away, throwing them out. One of the children was killed, Mrs. Niver so badly hurt that she cannot live and her daughter's back hurt. The other child escaped unhurt.

#### New Spanish Minister Arrives.

WASHINGTON, Oct. 1.—Senator Don Enrique Dupuy de Lome, the new Spanish minister, was formally presented to the president yesterday afternoon by the secretary of state. The usual courtesies were exchanged.

## JAPAN CALAMITIES.

A Typhoon Devastates Immense Sections—So Does a Gale—Terrible Accident at a Temple.

SAN FRANCISCO, Oct. 1.—The Pacific Mail Co.'s new steamship, Peru, arrived twenty-two days from Hong Kong, via Yokohama. She brings Japanese news up to September 16.

The gale which swept over southern and central Japan last month, inflicting such terrible damage in Tokushima prefecture, also devastated the Rinkin islands.

A report from Okinawa gives the following figures: Four hundred persons were crushed to death; missing, 34. Boats were blown out to sea and twenty-three houses completely overthrown; 1,511 houses were partially blown down. Crops were greatly injured, and the above figures do not include the devastation wrought in the smaller islands.

The typhoon of September 4 did much damage in Chizuoka, Aichih and Gumma prefectures. At Homamatsu the court house, school, sixty-two dwellings and a brick railway shed were blown down and ten persons killed and many wounded.

In Shizuoka prefecture 800 dwelling houses were blown down or partially destroyed, six bridges washed away and four embankments broken. Seven houses were swept away and seventy-one stores destroyed. In Aichi prefecture five people were killed and two wounded. The reclaimed lands were flooded and seventy dwellings washed away. Great damage was done in other parts of the province; also in the Gumma prefecture, the same story of devastation is told. Houses were destroyed and eight people injured.

During a festival at Mom Temple, near Kobe, a terrible accident occurred. The temple is approached by a flight of 250 steps, very steep. While a dense crowd was ascending the steps, a man at the top slipped, and in his fall brought down thirty people. Five were killed outright and others terribly injured.

#### WILL LET DOWN THE BARS.

Great Britain Will Open Ports to American Feeding Cattle if Satisfied of Rusk's Proclamation.

LONDON, Oct. 1.—Secretary Rusk's proclamation declaring the United States free from pleuro-pneumonia has not yet officially reached the board of agriculture here. The board officials, however, accept the declaration as valid, and appear ready to respond to the United States authorities' application for the free admission of live cattle. The Live Stock Journal, referring to the vast importance of the proclamation, holds that the government must allow a sufficient interval to elapse in order to prove beyond a doubt that the disease has been wholly suppressed, and that this provision should have been made against Texas fever, of which 500 cases were detected in 1891 among animals intended for export.

#### EXTENDING THE STRIKE.

Telegraphers Thinking of Calling Out the Rock Island Men.

CEDAR RAPIDS, Ia., Oct. 1.—The worst phase of the operators' strike appears near at hand. The company becoming desperate, has caused the arrest of three operators, but when put on trial, failed to appear for prosecution. These operators declare they will sue the company for damages.

Indications now point to a strike on the Chicago, Rock Island & Pacific road, though the operators on that road recently secured an advance in salary. Regarding the strike Chief Ramsey said: "We are seriously considering the matter of calling out the operators on the Rock Island railway if the matter is not settled soon. We claim the Rock Island owns or controls the Burlington, Cedar Rapids & Northern."

#### Deadly Diphtheria.

RACINE, Wis., Oct. 1.—A pathetic incident yesterday marked the progress of the severe epidemic of diphtheria which during the last two weeks has carried off many children and has caused the closing of several of the public schools. Two weeks ago the family of Peter Heidt, of 1000 Pearl street, consisted of father, mother and six children. The oldest daughter contracted the disease at a funeral. She died on September 19. The other children one by one came down with the disease and another died on the 23d and still another on the 27th. This morning the three remaining children lay stretched out in the house awaiting burial, having died last night. The mother is almost crazed with grief and is in a precarious condition.

#### The Recording of Tickets.

JEFFERSON CITY, Mo., Oct. 1.—Secretary of State Lesueur has decided in several cases submitted to him that certificates of nominations wholly within and for one county and city must be filed with the county clerk, or in St. Louis and Kansas City with the recorder of voters. Therefore the nominations for congress in the Eleventh and Twelfth districts, both being entirely in St. Louis city, must be filed with the recorder of voters. The same rule holds good as to senators and judges of the circuit and criminal courts under similar conditions. Only those nominations embracing more than one county must be filed with the secretary of state.

#### English Cotton Spinners Will Strike.

LONDON, Oct. 1.—Seventy-seven per cent. of the master cotton spinners of England decided to enforce a reduction of five per cent. in the wages of their employees. The men stubbornly refuse to accept the proposed reduction and intend to strike. It is generally admitted in Manchester that the stoppage of work will not be a bad thing for the trade, as it will enable the spinners to reduce their present heavy stocks.

#### Cooper & Co.'s Circus Stranded.

CLINTON, Mo., Oct. 1.—Cooper & Co.'s circus stranded in this city last night. The managers succeeded in taking the receipts of the evening and the horses and getting away. Numerous attachments were filed. The employees are penniless and loud are their declarations against the management.

## WITHOUT A CLOUD.

Trade Sincerely Blue as Colored By Sun.

### CURRENCY IN AMPLE SUPPLY.

Everybody With a Sufficiency of Funds—Collections Prompt—Outlook Excellent—Stocks Stronger—No Anxiety.

NEW YORK, Oct. 1.—R. G. Dun & Co. say in their weekly review of trade: Business continues larger than ever at this time of the year, and the commercial sky is without a cloud. Money is in ample supply and collections have rarely been more satisfactory. The outgo of money from western centers for purchases in the country is larger than usual, and yet there is no embarrassment. Crop reports are uniformly favorable and the promise is distinctly better than it was a few weeks ago. In general business is not only large and healthy, but the outlook for the coming months is everywhere regarded with the utmost confidence.

At Boston dry goods are active and the mills very busy, with the demand such in some lines that they cannot produce goods fast enough. The boot and shoe trade is very satisfactory, groceries and furniture are active and sales of wool much larger than last year. At Philadelphia iron improves with large sales. Trade in glassware is very busy. Iron is in better demand at Pittsburgh and the glass business is good. At Cleveland trade is improving and larger than last year, and at Cincinnati the clothing trade is better than previous years, though a slight decline is seen at the south. Western trade largely exceeds previous records. At Indianapolis general trade is fair. At Detroit trade increases over last year in some lines. Business is satisfactory at Milwaukee and crops secured in good shape. Chicago reports merchandise sales greater than last year and all conditions good. Receipts of products show increase in everything except rye.

At St. Louis trade is distinctly better and collections prompt. At St. Paul business is larger than a year ago, at Omaha very active; at Kansas City, good with a heavy receipts of cattle and grain and elevators about full. Business at Denver is moderate. At the south trade generally improving though caution prevails at Memphis. Better prices for cotton bring larger trade at Montgomery, and though business is only fair at New Orleans, sugar is strong and active and money in good demand.

Speculation in breadstuffs is lower with small transactions. Wheat and oats are nearly 1 cent, corn 1 1/2 cents lower and receipts of wheat at western points have been 6,363,395 in four days, against exports of only 650,116 bushels. Speculation in cotton has been enormous, sales reaching 1,360,000 bales, with an advance of a quarter during the week in spite of better receipts and more favorable crop reports. Hog products are higher, pork 75 cents per barrel, lard 55 cents and ribs 25 cents per 100 pounds. Coffee is an eighth stronger, but oil about 2 cents lower. Western receipts of cattle are 175,000 head, against 145,000 the same week last year.

The Hebrew holidays cause the usual decrease in sales of textile goods, the cholera scare has diverted many buyers from New York and it is between seasons for woollens, but dealings are excellent. Trade in knit goods is hesitating. Boots and shoe works are pressed to meet their orders. Large sales of pig iron reported, and especially in Cincinnati.

All works making structural iron are very busy, though bar iron is still weak and rails inactive. Copper is unchanged at 11 1/2 cents. Tin hesitating at \$20.05 and lead dull at \$4.07 1/2.

Foreign exchange has risen slightly and money has advanced to 6 per cent., but no anxiety is felt, and stocks are a shade stronger than a week ago. Demand for money at the west and south continues smaller than usual.

#### THE KANSAS TREASURY.

Biennial Report of the State Treasurer Published.

TOPEKA, Kan., Oct. 1.—The eighth biennial report of the treasurer of Kansas has appeared and it contains many facts of interest.

For the two years ended with June 30, the gross receipts of the office were \$5,392,531.10.

The expenditures lacked \$727,102.51 of using up the receipts, notwithstanding the tax levy is very low, being less than 5 per cent. The bonded debt of the state is \$801,000, of which \$12,500 will fall in 1894. For this amount the next legislature will have to make provision. These securities were issued in 1871 to relieve the destitute people on the frontier, and they are known in the office as "grasshopper bonds."

There is a permanent school fund investment of \$5,915,540.97 which draws interest at an average rate of 6 per cent. The semi-annual dividends from this source for the two years were \$1,0

\$50,000. -- \$50,000.

## NEW FREIGHT DEPOT.

## The M., K. &amp; T. to Build One in This City Immediately.

Sedalia is to have a new freight depot at once.

Mr. Sam Stahl returned this morning from Parsons where on yesterday he secured from the "Katy" officials the contract for building the M., K. &amp; T. freight depot at this place.

The building is to be erected at the corner of Main and Washington streets, will be 35x200 feet and cost \$7,000.

The new freight depot is made necessary by the largely increased business of the company consequent upon building the M. K. &amp; E. into St. Louis.

## THE CITY TEACHERS.

## The First Monthly Institute of the Year Meets at Broadway this Morning.

The patrons of the public schools would have been most gratified at the great interest in the school work as shown by the almost perfect attendance of teachers at the first monthly institute of

the year, which met at Broadway this morning. There was but one teacher absent.

Rev. Cronce delivered a highly interesting and forcible address on "Character building." Supt. A. J. Smith followed with a characteristic talk to the teachers in which he carefully outlined their work for the year and called attention to any little detail wherein there was possible improvement. Prof. Smith has a most high standard of excellence, and the work in the schools is the best possible recommendation that his theories are correct.

The pupils of the high school then rendered some delightful music, followed by the grade work of the teachers.

## OBSERVATIONS.

BY PETRUCHIO.

## Shams.

But after all I am not certain that shams do not serve a good purpose. There is much reality in life, and there is much that is not reality. But how good or how bad the influence of that which is not real upon our social fabric I am sure it would be folly for one to attempt to say.

My dear friend, look into the recesses of your heart and then say whether the world estimates you for the reality or sham of your life. How many friends would you have in the world if the real character of your nature was exposed to public view. But don't get frightened. The chances are that if the veil was raised by all alike there would be few whose good opinion you would care to court. You would merit as much respect from your neighbor as you would have for him.

I do not mean to say all mankind is essentially bad, though I am an orthodox believer in total depravity. There is much good in man, especially the feminine gender. But it is grace given and acquired, not inherent. And by custom, by the artificial conditions surrounding us, shams become a part of our very nature. So, after all, we are not altogether to blame for it. I would rather attempt to pass the New York quarantine from Hamburg than to get a clean bill of moral health, myself, and I hold my obedient servant up as a sort of model on questions of independence and anti-sham principles.

But how I truckle to greatness, with you, my friend, and to wealth, and to boorish consequential assurance! You and I do not go down on our knees as toadies, but we assert a mock independence which in itself is a tribute to that we essay to hold indifferently.

We wear better clothes than we can afford that richer people may see that we have as good taste as they. We take a notion, and wear seedy clothes, that we may prove our independence of custom and society. We refuse to entertain our friends to prove society makes no laws for us, and we entertain people for whom we care nothing to sustain our reputation for hospitality.

Why may we not teach our children simple courtesy, simple integrity, simple principles of justice, simple lives that tend to create really grand characters as devoid of sham as it is possible for human beings to be? Why may we not hold up nature as the model, pointing out that the leaves are given room to grow, that only such trees are straight and strong as are not crowded and smothered; that mankind is nearest of all created things to God, the creator of nature, and that for this reason they should be pure and unhampered by shams that dwarf them? Men represent God on earth, and as representatives of the Divine Creator they should be infinitely above the practices of ungodly deceptions and habits. Shams would then grow less, for there would be less need of them, and greatness would become as common as sham now is.

## TURNED AWAY.

## Tremendous Audiences at the Barnum &amp; Bailey Show.

An enormous number of people greeted the Barnum &amp; Bailey show with their attendance, Monday, at the first two of the long heralded exhibitions. In the afternoon 10,500 persons saw the performance. This was a large audience, but it was outdone in the evening. Long before the hour of opening for the second performance, little knots of humanity were seen hastening by every possible approach towards the grounds, while the double train of street cars were packed with eager men, women and children of all sorts and conditions anxious to be the first ones under the ocean of canvas that covers the big show. Before 8 o'clock the ticket wagon windows were closed. A few more than 14,000 persons for which the big tent provided seats had already been admitted, and before 8:15 o'clock hundreds and hundreds were turned away.

A noticeable feature of the menagerie was its cleanliness. Everything was as neat as an old maid's parlor, and there was a lack of usual unpleasant smell. Cages with a giraffe, a hippopotamus, a rhinoceros, a lioness and her four cubs, kangaroos, an ostrich and many other living objects of interest lined the sides, while the droves of elephants, camels, dromedaries, zebras and ponies took up the center. The optical illusions were good, and one was a novelty where a young lady in tights and a green bowler performed gyrations in the air with

no apparent means of support, finally diving slowly into obscurity.

In the tremendous exhibition tent, 600 feet in length, a bewildering number of rapidly performed feats of difficulty and danger was given in three rings and on two stages. The intelligence shown by the trained horses, elephants, cats, dogs, sheep, ponies, donkeys and a goat was wonderful. R. H. Dockrill, with a spirited horse, gave an especially noticeable act. Japanese performers, juggling, feats of equestrianism, wire walking, trapeze acts, balancing and many other portions of the program were very interesting. The little clown elephant, which Jumbo lost his life in saving, is now eight years old or more and with his trainer, Billy Burke, did a most noteworthy number. Hassen Ben Ali's Arabian acrobats exhibited an agility and strength very unusual. The large ring around the three inner ones was brought into use in exciting races, hurdle, double team, ladies' jockey and chariot races among them.

The grand finale was Imre Kiralfy's "Columbus and the discovery of America," gorgeous spectacle in five scenes, impossible to describe but introducing hundreds of performers in beautiful and varied costumes with attractive and startling effects, all of which were enhanced by carefully managed calcium lights.

One of the interesting points of the big tent show, to those who went early, Monday night, was the wonderful quickness which the attendants showed in handling what at first seemed to be an uncontrollably large audience. With the exception of a few stragglers every one was seated by 8 o'clock, at which time the opening march began. The introduction of the different numbers of the program was characterized by the same neatness and dispatch. — *Cleveland Press.*

## J. K. Yeater Goes Out of Business.

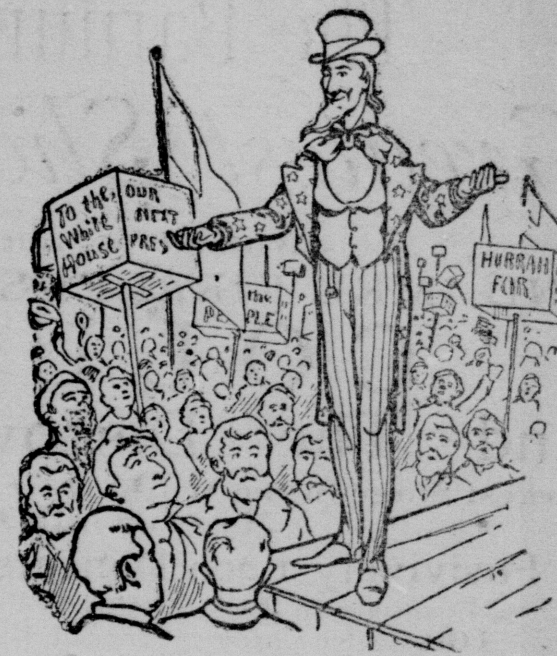

C. K. Gorrell and J. S. Ritenour, two well-known and popular farmers living near Longwood, have purchased the grocery store of J. K. Yeater on Main street and will enter upon a mercantile life. Mr. Yeater proposes to take a rest, as he has devoted twenty-eight years to the grocery business in Sedalia. Both gentlemen have a host of friends and the new firm is sure to be a successful one.

## Watch for Thieves.

Barnum's circus comes to-morrow and with it will doubtless come a big array of the light-fingered gentry, who will endeavor to give Sedalia numerous examples of their skill.

The night trains from Moberly will doubtless bring in a number of the "artists" and the wealthy Sedalia should see that his cash is carefully planted. Keep your eye open.

## A SMOOTH CAPTURE.

## How Marshal De Long Returned a Desperado to Justice—A Daring Negro.

It would be hard to find a more capable and thoroughly posted chief of police in the country than John De Long. His extensive experience with criminals and their methods not only enables him to capture them, but in a great many instances to ferret out the past records of many who are arrested for nothing but misdemeanors, but who are really criminals wanted for crimes in other places.

An instance of his work in this line is the case of Wm. Davis, a negro who was arrested several days ago for carrying concealed weapons and sent up for fifty days.

There were indications that Davis was not "straight" and his case was investigated. The result was that Sheriff T. J. Allen, of Fort Scott, Kansas, took Davis back to that place to-day where he is charged with holding up the proprietor of a lunch counter.

On last Tuesday morning at 3 o'clock, a negro entered the lunch room of Chas. Doherty, at Fort Scott, and with a drawn revolver compelled the proprietor to empty the contents of the cash drawer into a sack carried by the robber. Doherty, in his excitement dropped a peculiar flat key into the sack, which eventually proved a bad thing for Davis. The negro secured \$16.80 in cash, and then disappeared.

Davis when arrested in Sedalia had in his possession a sack and the missing key. With this evidence, Marshal DeLong succeeded in running Davis to the wall.

## AMUSEMENTS

## A Texas Steer.

Charles H. Hoyt's most successful comedy, "A Texas Steer," with clever Flora Walsh, Tim Murphy and an excellent company, will be the attraction at Wood's opera house Monday night. Hoyt fairly outdid himself when he wrote "A Texas Steer." The comedy has been a wonderful success since first produced, and is reported to be one of the leading money makers on the road. Seats are selling rapidly and one night of "standing room only" is what the manager anticipates.

## The Gun Club.

Quite a crowd witnessed the regular Friday afternoon shoot of the Sedalia gun club. There were four contestants for the medal. Chas. E. Taylor and Will Courtney each got 19 out of 20 pigeons, Linn Ilgenfritz 18, and Frank B. Meyer 18. In "saw off" between the first two, the score stood 5 to 6 in favor of Mr. Taylor.

## Remember the Place.

The fine meat sold at 703 Ohio street is attracting attention and A. L. Lee is being credited all over the city with keeping the very best meat the market affords. Don't forget his special sale on Tuesday, when you can buy enough meat for a small sum to last you the rest of the week.

## A Pleasant Surprise.

The young friends of Miss Ola D. Eckles surprised her last night by calling in force at her home at

103 North Lamine street. The young folks enjoyed themselves thoroughly with games until ten o'clock, when they were served a splendid luncheon by Miss Ola's mother.

Some of the young folks present were Nellie Gaskill, Gusta Smith, Miss Jessie, Rosie Likes, Lena Grace and Leo Bahner, Charlie Gaskill, Pearl Teufel and Willie Vite.

## A Special Train.

The Sedalia Flambeau club will go to Kansas City in full force, Tuesday. They will run a special train, to leave here at 8 o'clock Tuesday morning and to return that night after the exercises are over. The fare for the round trip will be \$1.50.

## Saturday Club.

The Saturday Club met at residence of Mrs. Charles Taylor on West Third street this afternoon, the ladies were pleasantly entertained with refreshments and cards.

## The Old Dominion.

The DEMOCRAT takes pleasure in acknowledging copies of Danville, Va. papers, handed in by J. P. Guarrant and which are brimful of good democratic news.

## The Best Meats.

The best meats in the city at Peter Disqua's meat market, corner Twelfth and Ohio. All orders promptly filled. Orders solicited.

MASONIC FUNERAL NOTICE. GRANITE LODGE NO. 372 A. F. &amp; A. M. meets in called communication at 7:30 o'clock sharp this evening for the purpose of making funeral arrangements for our late brother, B. C. Simmet. A full attendance is desired. Visiting brethren are fraternally invited. By order of R. C. Woods, W. M. M. L. Jacobs, Secretary.

## Likes the Stage.

In a letter received by a Sedalia friend, Bob Willett, now a member of the Ward-James theatrical company, states that he is highly pleased with his new vocation. The company is doing an immense business and is now in the south.
